

KHWEZI FLATELA

Microsoft 365 Specialist | SharePoint & Power Platform Expert | Digital Transformation

076 631 1195 | qwezzy@gmail.com | linkedin.com/in/khwezi-flatela | khwezi.online | Benoni, Gauteng

PROFESSIONAL PROFILE

Results-driven Microsoft 365 specialist with 15+ years of experience transforming how organisations work through SharePoint Online, Power Platform, and M365 ecosystem solutions. Proven ability to bridge technical expertise with business needs — designing automated workflows, driving user adoption, and delivering measurable efficiency improvements across multi-entity organisations. At Goscor Group, I manage the M365 environment for nearly 1,000 employees, building end-to-end solutions from stakeholder requirement gathering through to implementation and training. Founder of Khemo IT Solutions, a boutique digital transformation consultancy serving South African businesses.

CORE COMPETENCIES

SharePoint Online & On-Premises	Power Automate & Power Apps	Microsoft Teams Administration
Power BI & Dataverse	Exchange Online & OneDrive	Microsoft Copilot Integration
Business Process Analysis	Workflow & Approval Automation	User Adoption & Training
Stakeholder Engagement	Microsoft 365 Governance	Azure & Power Pages

PROFESSIONAL EXPERIENCE

Developer — Microsoft 365 & Digital Transformation

Goscor Group

April 2025 – Present | Benoni, Gauteng

- Manage and continuously improve the Microsoft 365 environment across a ~1,000-employee organisation, encompassing SharePoint Online, Teams, OneDrive, and Power Platform.
- Design and implement SharePoint solutions across multiple business units, including approval workflows, HR process automation, and brand-compliant intranet experiences.
- Automate business processes by migrating Excel-based workflows to Power Pages and Dataverse, reducing manual effort and improving data integrity.
- Lead HR digital transformation using JotForm-integrated systems, streamlining recruitment and onboarding processes.
- Build Power Automate flows for approvals, notifications, and cross-system integrations including Mix Telematics fleet management APIs.
- Provide training and guidance to business units, driving adoption of Microsoft 365 tools and empowering teams to work more effectively.

Founder & Lead Consultant

Khemo IT Solutions

January 2010 – Present

- Founded and operate a digital transformation consultancy specialising in SharePoint, Power Platform, and Microsoft 365 solutions for South African SMEs and NGOs.
- Delivered a R65,000 SharePoint automation project proposal for USAASA (Universal Service and Access Agency of SA), digitising HR onboarding processes through automated workflows and approval routing.
- Advise clients on POPIA compliance, process automation, and Microsoft 365 adoption strategies, translating complex requirements into practical, scalable solutions.
- Delivered projects for international clients including CNRF (France), Aboriginal Ecotourism, and C.I.E Lighting.

SharePoint Administrator

Motus Holdings Limited

March 2018 – November 2020

- Led organisation-wide SharePoint Online rollout — planning, timelines, stakeholder management, and governance framework establishment.
- Managed site collections, storage policies, external sharing settings, user profiles, and permissions across the enterprise.
- Collaborated with business units to understand requirements and design SharePoint solutions that improved collaboration and information management.

Microsoft 365 Administrator

Motus Holdings Limited

January 2017 – March 2018

- Executed on-premises Exchange to Office 365 cloud migration with minimal business disruption.
- Deployed and configured Microsoft Teams, SharePoint Online, and OneDrive for Business as part of the organisation's cloud transformation.
- Managed service health monitoring, cloud policies, and service requests for the M365 tenant.

Web Developer

South African National Biodiversity Institute (SANBI)

June 2008 – December 2011

- Developed and maintained the SABIF web portal, managing server infrastructure and stakeholder integrations with the Global Biodiversity Information Facility (GBIF).

Earlier Experience

Cornastone Consulting (2007–2008): Developed web solutions for the Department of Public Works. National Metrology Institute of SA (2006–2007): Built SADC MET website and configured mail servers. C.I.E International Commission on Illumination: Developed main website and 8 divisional sites.

TECHNICAL SKILLS

Microsoft 365 Stack	SharePoint Online & On-Premises, Power Automate, Power Apps, Power BI, Power Pages, Dataverse, Teams, Exchange Online, OneDrive, Azure, Microsoft Copilot
Web Technologies	HTML5, CSS3, JavaScript, PHP, jQuery, React, MySQL, REST APIs
Platforms & Tools	JotForm, Mix Telematics API, Adobe Creative Suite, WordPress, Joomla
